TARIFF FORMAT

- (A) **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially, however, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added.
- (B) **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14. Because of the various suspension periods and deferrals the Commission follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff page in effect. Consult the check sheet for the page currently in effect.
- (C) **Paragraph Numbering Sequence** - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1(A)
 - 2.1.1(A)(1)
 - 2.1.1(A)(1)(a)
 - 2.1.1(A)(1)(a)(1)
- (D) **Check Sheets** - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There shall be no other symbols used on this page if these are the only changes made to it. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

SECTION 2.0 - REGULATIONS

2.1 Undertaking of the Company

Service is offered to Business Customers of the Company to provide advanced data services originating and terminating within the State of Kentucky. The Company does not undertake to transmit messages but furnishes the use of its facilities to its Customers for communications. All Services are provided subject to the terms and conditions set forth in this tariff. In the event of a conflict between a contract entered into by the Company and this tariff, the terms of this tariff shall prevail.

The Company's services are provided on a monthly basis unless otherwise provided, and are available twenty-four (24) hours per day, seven (7) days per week.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.2 Limitations on Service

- 2.2.1** Service is offered subject to the availability of the necessary facilities and subject to the provisions of this tariff.
- 2.2.2** Company reserves the right to discontinue furnishing Service, or to limit the use of Service, when necessitated by conditions beyond its control, when Customer or an Authorized User is using Service in violation of the law or in violation of the provisions of this tariff, or for non-payment by Customer.
- 2.2.3** Service provided under this tariff is directly controlled by Company, and Customer may not transfer or assign the use of Service, except with the prior written consent of Company. Such transfer or assignment shall only apply where there is no interruption in the use or location of Service, and all regulations and conditions contained in this tariff, as well as all conditions for Service, shall apply to all such permitted assignees or transferees.
- 2.2.4** Customer may, where applicable, request Company to assign one or more sub-accounts for billing purposes and to direct sub-account invoices to affiliates of Customer or other designated entities for payment purposes. Such requests shall not affect the liability of Customer, who shall remain solely liable to Company for payment of all invoices for Service requested and obtained by Customer, whether invoiced by Company to Customer, its affiliates, or other designated entities.
- 2.2.5** Service may not be used for any unlawful purpose.
- 2.2.6** Intrastate Services are provided only in conjunction with interstate Services.
- 2.2.7** Service is offered subject to the limitations contained in 47 U.S.C. Section 271 until such time as the Company may be relieved of such limitations. This subsection shall not apply to Service when the Company is relieved of the referenced limitations.

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.2 Limitations on Service, (Cont'd.)

2.2.8 The rates, terms and conditions contained in the original pages (and, unless specifically noted otherwise, any revised pages submitted prior to relief from the limitations of 47 U.S.C. Section 271) are established to comply with Commission requirements and permit certification of the Company. Because the date of relief from the limitations referenced in 2.2.7 is uncertain, the Company is not submitting at this date the details of offers it may make to customers when it has authority to offer in-region interLATA services (as defined in 47 U.S.C. Section 271) in Kentucky, and the rates, terms and conditions effective until such relief are not necessarily evidence of offers that may be made. Such offers will be made in accordance with Commission requirements when the Company can compete for customer's in-region interLATA business in Kentucky.

2.3 Limitations on Liabilities

2.3.1 Except as otherwise stated in this section, the liability of the Company for damages arising out of either: (1) the furnishing of its Services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these Services, or (2) the failure to furnish its Service, whether caused by acts or omission, shall be limited to the extension of allowances to the Customer for interruptions in Service as set forth in Section 2.14.

2.3.2 Except for the extension of allowances to the Customer for interruptions in Service as set forth in this tariff, the Company shall not be liable to a Customer or third party for any direct, indirect, special, incidental, reliance, consequential, exemplary or punitive damages, including, but not limited to, loss of revenue or profits, for any reason whatsoever, including, but not limited to, any act or omission, failure to perform, delay, interruption, failure to provide any Service or any failure in or breakdown of facilities associated with the Service.

2.3.3 The liability of the Company for errors in billing that result in overpayment by the Customer shall be limited to a credit equal to the dollar amount erroneously billed or, in the event that payment has been made and Service has been discontinued, to a refund of the amount erroneously billed.

- (C)** Any unlawful or unauthorized use of the Company's Services;
- (D)** Libel, slander, invasion of privacy or infringement of trademarks, patents, trade secrets, or copyrights arising from or in connection with the transmission of communications by means of Company provided facilities or Services; or by means of the combination of Company provided facilities or Services with Customer provided services;
- (E)** Breach in the privacy or security of communications transmitted over the Company's Service.

- (G)** Defacement of or damage to Customer premises resulting from the furnishing of Services or equipment on such premises or the installation or removal thereof;
- (H)** Injury to property or injury or death to persons, including claims for payments made under Workers' Compensation law or under any plan for employee disability or death benefits, arising out of, or caused by, any act or omission of the Customer, or the construction, installation, maintenance, presence, use or removal of the Customer's facilities or equipment connected, or to be connected to the Company's facilities.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.4 Cancellation or Discontinuance of Service by the Company

Without incurring any liability, the Company may, under the following conditions, cancel Service prior to commencement and/or discontinue Service that is being furnished for the following reasons; provided that, unless otherwise stated, Customer shall be given proper notice of such cancellation or discontinuance of Service:

- 2.4.1** Without notice, for noncompliance with or violation of any applicable State, municipal or Federal law, ordinance or regulation or noncompliance with or violation of any Commission regulation, provided that notice may be required by order of such regulatory authorities.
- 2.4.2** For Customer's or Authorized User's refusal to provide reasonable access to the Company or its agents for the purpose of inspection and maintenance of equipment owned by the Company.
- 2.4.3** For noncompliance with any of the provisions of this tariff governing Service.
- 2.4.4** For nonpayment of any sum due the Company for more than thirty (30) days after delivery of an invoice to the custody of the U.S. Mail or other standard delivery service.
- 2.4.5** Without notice, in the event of Customer's or Authorized User's use of equipment in such a manner as to adversely affect the Company's equipment or Service to others.
- 2.4.6** Without notice, in the event of unauthorized or fraudulent use of Service. Whenever Service is discontinued for unauthorized use of Service, the Company may, before restoring Service, require Customer to make, at its own expense, all changes in facilities or equipment necessary to eliminate unauthorized use and to pay to the Company an amount reasonably estimated by the Company as the loss in revenues to the Company resulting from such unauthorized use plus claims lodged against the Company by third parties.
- 2.4.7** Without notice, by reason of any order or decision of a court or other government authority having jurisdiction that prohibits the Company from furnishing Service to Customer or its Authorized Users.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.5 Cancellation or Termination of Service by Customer

2.5.1 Service shall be canceled by Company promptly upon receipt of a cancellation request from Customer. Upon cancellation a final bill will be prepared, as per the specifications set forth in this tariff. The Customer shall be liable for all recurring charges prior to proper notice if a change in presubscribed carrier is initiated by the Customer.

2.5.2 Cancellation by Customer - Prior to Commencement of Service

(A) For Services Other than Packet Service Line and Frame Relay Service:

No charge applies when the applicant cancels an application for service prior to the start of installation or special construction.

When an applicant cancels an application for service after the start of installation or special construction, the applicant shall pay a cancellation fee which is the lesser of 1) the costs incurred by the Carrier, or 2) the charge for the minimum period of the service ordered, plus applicable installation charges.

Customers are responsible for all charges, including fixed fees, which accrue up to the cancellation date.

(B) For Frame Relay Service and Packet Service Line:

If applicant orders service from Carrier and then cancels the service request prior to the service commencement date or start of service, Carrier may assess a charge to the Customer as described below:

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.5 Cancellation or Termination of Service by Customer, (Cont'd.)

2.5.2 Cancellation by Customer - Prior to Commencement of Service, (cont'd.)

(B) For Frame Relay Service and Packet Service Line:, (continued)

These cancellation charges vary based upon the facility bandwidth ordered and/or whether a Local Service Request has been placed with the appropriate Local Exchange Company (LEC). Pre-LSR is defined as the period before the Carrier places a service request with the LEC. Post-LSR is defined as the period after the Carrier places a service request with the LEC.

Cancellation charges will be as follows:

Post-LSR	\$900.00	\$1,000.00	\$2250.00

2.6 Restoration of Service

The use and restoration of Service shall in all cases be in accordance with the priority system specified in Part 64, Subpart D, of the Rules and Regulations of the Federal Communications Commission.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.7 Payment and Billing

- 2.7.1** Service is provided and billed by the Company on a monthly basis. Usage sensitive charges are billed in arrears and fixed monthly recurring charges, if any, are billed one month in advance. The Customer shall pay monthly in advance or on demand all monthly recurring charges for Service and shall pay on demand all charges for usage at any agency duly authorized to receive such payments.
- 2.7.2** Bills are due and payable upon receipt. Interest at the lesser of a rate of one and one-quarter percent (1.25%) per month, or the maximum rate allowed by law, shall be charged. The 1.25% charge is applied to all new charges on a customer's previous month's bill which were not paid prior to the next billing date. Additional penalty charges shall not be assessed on unpaid penalty charges.
- 2.7.3** Should service be suspended for nonpayment of charges, it will be restored when appropriate payments are made.
- 2.7.4** When service has been disconnected for nonpayment, the service agreement is considered to have been terminated. Reestablishment of service may be made only upon the execution of a new service agreement which is subject to the provisions of this tariff.
- 2.7.5** In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for nonpayment of charges, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for nonpayment of any such or other charges due and unpaid or for the violation of the provisions of this tariff; nor shall the failure to suspend or disconnect service for nonpayment of any past due account or accounts operate as a waiver or estoppel to suspend or disconnect service for nonpayment of such account or of any other past due account.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.7 Payment and Billing, (Cont'd.)

2.7.6 The Company may demand an additional deposit under the following circumstances:

- (A) Where Service is terminated or abandoned.
- (B) Where actual usage is two times greater than the Customer's average usage as reflected on the monthly bills for the three months prior to the current bill or, in the case of a new Customer who has been receiving Service for less than four months, where the actual usage is twice the estimated monthly usage charge.
- (C) Where the Company has reason to believe that a Business Customer is about to go out of business or that bankruptcy is imminent for that Customer.

2.7.7 A charge of \$20.00 will apply whenever a check, draft, or electronic funds transfer presented for payment for service is not accepted by the institution on which it is written.

2.7.8 If notice from Customer of a dispute as to charges is not received in writing by the Company within forty-five (45) days after delivery of an invoice to the custody of the U.S. Mail or other standard delivery service, the billing will be considered correct and binding. Contested charges will be handled in accordance with 807 KAR 5:006, Section 9.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.8 Deposits

- 2.8.1** Each applicant for Service will be required to establish credit. Any applicant whose credit has not been duly established and acceptable to the Company may be required at the time of application to make a deposit to be held as a guarantee of payment of charges. In addition, an existing Customer may be required to make a deposit or increase a deposit presently held.
- 2.8.2** A deposit is not to exceed one month's Service and the estimated usage charges for two (2) month's service plus installation. A Deposit will be returned as follows:
- (A)** When an application for service has been canceled prior to the establishment of Service. The deposit will be applied to any charges applicable in accordance with this tariff and the excess portion of the deposit, if any, will be returned.
 - (B)** Upon termination of Service, the deposit and accrued interest, as described herein, will be applied to any charges applicable in accordance with this tariff and the excess portion of the deposit, if any, will be returned promptly.
- 2.8.3** Interest will be paid on all sums held on deposit at the rate of six percent annually. The interest will be applied as a credit to the customer's bill or will be paid to the customer on an annual basis. If the deposit is refunded or credited to the customer's bill prior to the deposit anniversary date, interest will be paid or credited to the customer's bill or paid to the customer annually, interest will be computed by a method which will result in an amount no less than that obtained by using a middle course method between simple and compound interest in compliance with Commission Order dated November 11, 1989 in Case No. 89-057. Interest on deposits computed in this manner will accrue until credited to the customer's bill or paid to the customer.
- 2.8.4** The fact that a deposit has been made in no way relieves the applicant or Customer from complying with the Company's regulations as to advance payments and the prompt payment of bills on presentation nor does it constitute a waiver or modification of the regular practices of the Company providing for the discontinuance of Service for nonpayment of any sums due for Service rendered.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.9 Advance Payments

Where special construction charges are applicable the payment thereof may be required in advance of start of construction. The amount of advance payment will be credited to the Customer's account on the first bill rendered for Service, and a new advance payment may be collected each month to be applied to each subsequent bill for Service.

2.10 Taxes

Any assessments, franchise fees, privilege, license, occupation, excise, or other similar taxes or fees, whether in lump sum or at a flat rate, or based on receipts, or based on poles, wire or other utility property units, imposed upon the Company by any governmental authority shall be added pro rata, insofar as practical, in amounts which in the aggregate for the Company's Customers of any political entity shall be equal to the amount of any such tax upon the Company. The Company shall, so long as any such tax or fee is in effect, add to the bills of the Customers in such political entity pro rata on the basis of the revenue derived by Company from each such Customer, an amount sufficient to recover any such tax or fee.

Issued: January 3, 2007

Effective: January 4, 2007

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.11 Terminal Equipment

Service may be used with or terminated in terminal equipment or communications systems, such as a PBX or key telephone system, provided by Customer or its Authorized User. Such terminal equipment or communications systems shall be furnished by and maintained at the expense of Customer or its Authorized User, except as otherwise provided. Customer or its Authorized User is also responsible for all costs at its premises incurred in the use of Service, including but not limited to equipment, wiring, electrical power, and personnel. When such terminal equipment or communications systems are used, they shall in all respects comply with the generally accepted minimum protective standards of the telecommunications industry as endorsed by the Federal Communications Commission.

2.12 Interconnection

Service furnished by the Company to Customer or its Authorized Users may be connected with the services or facilities of other carriers. Customer is responsible for all charges billed by other carriers in connection with the use of Service. Any special equipment or facilities necessary to achieve compatibility between carriers are the sole responsibility of Customer.

2.13 Inspection, Testing and Adjustment

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE

3.1 Service Descriptions

3.1.1 The Company provides telecommunications Services between locations within the State of Kentucky as specified in Section 2.1 of this tariff. The Company's Service charges may be based upon service type, call duration, time of day rate period, mileage, and/or call type.

3.1.2 The Company's Service is available twenty-four hours per day, seven days a week.

3.2 Calculation of Distance

For mileage sensitive services, the distance between originating and terminating points of a private line facility are determined using vertical ("V") and horizontal ("H") coordinates for the serving wire center(s) or BellSouth Long Distance access point(s) associated with the facility. For purposes of determining the airline mileage of a call the Company references the V and H coordinates as found in BellCore's V&H Tape and NECA FCC Tariff No. 4. The use of coordinates for wire centers versus access points and the method for calculating actual distances varies based on the type of service and the form of access used to reach the BellSouth Long Distance network.

For non-switched private line services, mileage measurements are based on the distance in airline miles between BellSouth Long Distance access points associated with each end of the circuit. Distance measurements are determined using the mileage calculation method shown in section 3.2.1

Effective: January 4, 2007

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.2 Calculation of Distance, (Cont'd.)

3.2.1 Calculation Method for Private Line Services

The following steps describe the procedure for calculating mileage distances for private line services:

- Step 1 Obtain the "V" and "H" coordinates for the Company access points serving the originating and terminating locations.
- Step 2 Obtain the difference between the "V" coordinates. Obtain the Difference between the "H" coordinates. The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
- Step 3 Square the differences obtained in Step 2.
- Step 4 Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6 Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the wire centers and/or access points.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

3.3 Frame Relay Service

3.3.1 General

- (A) Frame Relay service is a connection-oriented data transport service based on packet switching technology.
- (B) Frame Relay service provides flexible connectivity using Permanent Virtual Circuits (PVCs) implemented over digital facilities operating at transmission speeds of 56 Kbps, 64 Kbps, 1.536 Mbps, or 44.210 Mbps.
- (C) Frame Relay service, as provided for in this Tariff section, is offered for intrastate use only.
- (D) The regulations and rates specified herein are in addition to the applicable regulations and rates specified in other sections of this Tariff of the Company.
- (E) Frame Relay Service is only available in:
 - (1) BellSouth Telecommunications Inc. service areas
 - (2) Independent Territory where the Company has a meet-point agreement in place with a network provider in the Independent Territory.
- (F) The rates and charges set forth for Frame Relay Service provide for the furnishing of service where suitable facilities are available.
- (G) Suspension of service is not allowed.
- (H) The minimum service period is one month.

Effective: January 4, 2007

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.3 Frame Relay Service, (Cont'd.)

3.3.2 Explanation of Terms

(A) Customer Connection to Frame Relay Service

The Customer Connection (or Port) provides the Customer with the standard interface to the Frame Relay service network. This interface receives the data frame from the Customer's network or device and verifies that the DLCI is valid before relaying the frame to the destination. Included in the Customer Connection are the Customer's termination on the Frame Relay service switching equipment, the transport from the Serving Area Point to the switching equipment, and the first DLCI. These interfaces connect the Frame Relay service network with digital facilities operating at transmission speeds of 56 Kbps, 64 Kbps, 1.536 Mbps, or 44.210 Mbps.

(B) Frame Relay Service Network Serving Area

Certain serving wire centers are designated Serving Area Points. A Frame Relay Service Network Serving Area is comprised of all the Serving Area Points in a geographic area.

(C) Permanent Virtual Circuit (PVC)

A software defined data path transporting data within the Frame Relay service network between two Customer Connections. This data path, once defined in the network software, does not have to be established again. PVCs are end-to-end, bi-directional channels that are established via the service provisioning process.

(D) Data Link Connection Identifier (DLCI)

The Frame Relay standard specifies an address field called the Data Link Connection Identifier. The DLCI specifies a connection. A PVC is created when any two DLCI's are mapped together.

Effective: January 4, 2007

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.3 Frame Relay Service, (Cont'd.)

3.3.2 Explanation of Terms, (cont'd.)

(E) Committed Information Rate (CIR)

Committed Information Rate is a feature that enables the Customer to select a sustained throughput under normal conditions. A CIR must be selected for each DLCI. Frames submitted at a rate above the subscribed CIR will be marked "discard eligible" (DE) and should network congestion occur, are subject to being dropped by the network. If CIR is set equal to zero, then all frames will be marked DE. However, in the absence of network congestion, DE marked frames will be transported with the same reliability as frames not marked DE within a single, Company Frame Relay switch. The CIR value selected cannot exceed the minimum transmission speed of the link at either end of the PVC.

(F) Serving Area Point (SAP)

A Company serving wire center that is designated as a member of the Frame Relay Service Network Serving Area. (See the definition of Frame Relay Service Network Serving Area preceding.)

SECTION 3.0 - GENERAL DESCRIPTION OF SERVICE, (CONT'D.)

3.3 Frame Relay Service, (Cont'd.)

3.3.3 Obligations of Customer

- (A) The Customer is responsible for the provision and maintenance of all Customer Provided Equipment (CPE) and to ensure that the operating characteristics of this equipment are compatible with and do not interfere with the service offered by the Company.
- (B) The maximum number of DLCIs per Customer Connection is subject to the characteristics of the Customer's data traffic. Thus, the number of DLCIs per Customer Connection must be negotiated between the Customer and the Company at the establishment of the Customer Connection and subsequent to the establishment should the traffic characteristics change. A maximum of 250 DLCIs may be established across a single Customer Connection.

3.3.5 Provision of Service

- (A) Certain Company serving wire centers are designated by the Company as Serving Area Points (SAPs) for the Frame Relay Service Network Serving Area. A Customer accessing the Frame Relay service network via Packet Service Line service and whose serving wire center is designated as a SAP, will only require a Packet Service Line as described in 3.4 of this Tariff. A Frame Relay Service Customer, who accesses the Frame Relay network via Packet Service Line service and whose serving wire center is not designated as a SAP, will require a Packet Service Line to the serving wire center, as well as, a Packet Service Line Extension (also described in 3.4) to gain access to the closest designated SAP.
- (B) The Customer Connection rate element includes the Customer's transport from a Serving Area Point to the Frame Relay Service switching equipment and the Customer's termination on the Frame Relay Service switching equipment.

3.3.5 Provision of Service, (cont'd.)

- (C) Should a Customer having locations in more than one Frame Relay Network Serving Area within a LATA, desire to send data traffic between these locations, the Customer can interconnect these locations through the following two options:

(1) Dedicated Connection:

The Customer subscribes to additional Customer Connections (or Ports) in each Network Serving Area which are enabled to support inter-serving area connectivity and Packet Service Line Extensions to connect them. These additional rate elements will be used solely to transport this Customer's data traffic between affected Frame Relay Network Serving Areas. Feature Charges apply for CIRs associated with PVCs through each connection.

(2) Shared Connection:

The Company may establish facilities between Frame Relay service switching equipment in different Network Serving Areas in the same LATA and may allow Customers to share bandwidth on these facilities; where these shared facilities are available to Customers, a shared connection is an option. The Customer must establish one or more Inter-Network Serving Area Links that extend between Frame Relay switches. Each of these links has an associated CIR. One PVC exists between both Customer premises through each link. All CIRs on this PVC must have the same value. Charges for the Inter-Network Serving Area Link are applied as follows:

- (a)** the Inter-Network Serving Area Link Establishment is charged at each end of the link,
- (b)** the Inter-Network Serving Area Link CIR is charged at each end of the link.

(A) Payment Plans

Tariffed services provided by the Company may be offered under contract at discounted or stabilized rates to Customers who agree to use the Company's services for specific time periods or meet other service specific criteria designated by the Company. Plan availability, qualifications, and rates for services offered with Payment Plans are specified on a per service basis in Sections 3 and 4 of this tariff. Rules and regulations associated with each Payment Plan are listed in this section of the tariff. SECTION 6.0 - CONTRACTS FOR SERVICE, (CONT'D.)

6.2 Payment Plan No. 1 (PP-1)

6.2.1 General

The regulations specified herein are applicable to all services offered under Payment Plan No. 1 ("PP-1") as indicated in each service's respective subsection of this Tariff.

Payment Plan No. 1 allows Customers to stabilize recurring rates and charges for Company services over contractual service periods. A specific monthly rate applies for the duration of each period.

When the Customer orders service to be provided under PP-1, the Customer must designate to the Company the payment option and/or service period desired. Available payment options and service periods for each service offered under PP-1 are described in that service's specific tariff section.

6.2.2 Application of Rates and Charges

Rates stabilized under Payment Plan No. 1 are exempt from Company initiated increases.

When Customers renew or change the length of their payment option or service period, the rates applicable for the new period are those currently in effect at the time of the renewal or change in the length of the period(s).

SECTION 6.0 - CONTRACTS FOR SERVICE, (CONT'D.)

6.2 Payment Plan No. 1 (PP-1), (Cont'd.)

6.2.3 Termination Liability Charge

In the event that all or any part of a service is disconnected at Customer request prior to expiration of any selected payment period of greater than one month's duration, the Customer will be required to pay a Termination Liability Charge unless specifically stated otherwise in that service's specific Tariff section.

The Termination Liability Charge is determined by multiplying the number of months remaining in the contract payment period by the contracted monthly rate by 90 percent.

The Tariff provisions concerning termination liability for recurring charges only shall not be applicable to any state, county, or municipal governmental entity when there is in effect as a result of action by such entity and through a duly constituted legislative, administrative, or executive body: a statute; an ordinance; a policy directive; or a constitutional provision which restricts or prohibits an additional contractual payment for early termination of a contract by any such entity, or agency thereof, due to an unavailability of funding. When service is being provided and funding to the governmental entity for such service becomes unavailable, the governmental entity may cancel the service without additional payment obligation. Provided, however, that if the governmental entity cancels the service for any reason other than the unavailability of funds, the termination liability provisions in the Tariff shall apply.
